

Privacy Policy

Data protection and data security for customers and users have a high priority for our company. Therefore International Card Systems (CaSys) attaches great importance to the protection of personal data in all business processes.

This privacy statement explains what kind of information is collected at CaSys during your visit to our Web sites and how we use this information. However, your visit to other sites through our Web site is not subject to this statement.

Collection and processing of personal data

For the purpose of system security, when you visit our Web sites (www.casys.com.mk/www.cpay.com.mk), our Web server temporarily registers the domain name or the IP address of the requesting computer as well as few technical data for the session i. e. for your visit. We might also, in some cases, store some information in the form of “Cookies” on your PC so that we can optimize our Web site according to your preferences. “Cookies” are small data files containing information that is placed on a user’s computer by a Web server. Any information that is stored by a Web server in “Cookies” is used for providing the Web service only in a way that your privacy is secure. We will not collect any other personal data such as name, address, telephone number or e-mail address unless you provide this information voluntarily, e.g., when placing an online order for a product or service, a survey, a competition, or a request for information. Personal data collected during a visit to our Web site is processed exclusively in accordance with the valid legal provisions of R. Macedonia.

Use and forwarding of personal data

We will use your personal data exclusively for the technical administration of the Web site and to meet your wishes and requests. We will not disclose any data to government agencies except where required by law. All our employees are obligated to treat your data as confidential.

Security

We have taken extensive technical and operational precautions to protect the personal data retained by us against unauthorized access and misuse. Our security procedures are revised regularly and adapted to reflect technological progress.
